Down the road, there's a garden path that blends perfectly with its surroundings. It feels like Nature herself must have put it there. You see a driveway that's too beautiful to roll a car across. A horse-drawn carriage seems more appropriate. Now look around. How do you want your world to feel?

Classico® Feels like old times, only better.

Picture this. Long walks of cobblestone punctuated by circles, semi-circles and sweeping fan-shaped curves. Classico® isn't just one paver—it's an entire system of shapes that brings curves, fans and circles into a design. Much like its cobblestone ancestors, Classico® blends in naturally with its surroundings. Four distinct shapes make up the Classico® system and can be combined to make dramatic statements or subtle shifts in the landscape.

Front: Classico® random creates an old world charm in this Rotunda. **Below:** Classico® circle stones in a driveway arranged in a Fan pattern. **Right:** The detailed center of a Classico® Pin Wheel pattern with multi-colored stones.

The PaverSystems Quality Assurance™ Our pavers are designed to the highest standards for durability, color and texture. All PaverSystems™ pavers comply with or surpass ASTM C-936-01 standards.

Driveway using Appian-Stone® combo with Classico® circles inset for a dramatic look.
